Kelker that the city reckoned by Maj, Kelker that the city would have enough cash to permit the building of subways, extensions, and improvements needed for years to come and at the same time acquire the properties in about forty years. No criticsm has been made by the transit bankers of the Kelker estimated.

The negotiations have reached a where the strategy of the com-

hat would go to the city and increase the amount they will receive.

First, the companies argued yesterday, the city should invest its \$54, 800,000, received as 55 per cent of the set receipts of the surface lines, in the construction of a subway.

"Why is it necessary to withhold a subway until all of these other matters are settled?" asked Lucey.

"A subway is the heart of the whole matter."

REMOVING WARTS. W. M. writes: I had what I took to be a wart on top of my head and used castor ell only for a few oweeks and it disappeared, but I cently discovered another on another ace on my head just back of my forehead, but castor oil does not seem to affect it. It may have been on my head for a long time and only recently overed, as my hair is thinner

wart off. For this purpose various meththen run through the wart. The pin must go in deep enough to sear the blood vessel zone. Physicians use an electric spark, or an electric knife or needle for the same purpose. Caustics are used, such as nitrate of silver, lunar caustic, nitrie acid, or glacial

Dr. Roxborough, who wrote very learn edly last summer on warts, advises that the removal of warts be regarded as a warts, except the senile warts which due to a filterable virus; that they are, therefore, contagious in some degree He thinks the so-called venereal warts are not venereal at all. They are caused by the same kind of filterable virus as causes other kinds of warts, and they other kinds.

One of the simplest remedies of the caustic group is salicylic acid. The simplest way to apply that is by paint-ing on some corn medicine. Corn medi-cine is merely a combination of salicylic acid and collodion with a few other drugs added for good measure. To use another course if necessary.

acid is to paint the wart a few times with a saturated solution of the acid in alcohol. In many cases, simpler remedies such

as greasing the warts with castor oil are effective. Keeping the parts dry of senile warts. Warts are quite apt to warm. Dusting powders of various kinds, drying applications, cleansing applications and greases are sometimes effec tive in curing warts in such locations. Perhaps the drying and antiseptic action of calomel rather than the specific effect of mercury is what makes calomel dusting effective with moist warts.

How to Escape FLU

- Avoid so far as possible the places where flu germs are most apt to be: crowded cars; public meeting places; warm, stuffy rooms.
- Be careful of close contact with others and beware of all coughers and sneezers; breathe through the nose.
- Get lots of rest. Eat plenty of citrus fruits. Keep the bowels open. Take every precaution to keep in good physical condition, so your system will have high resistance against
- Above all, avoid catching cold. Any cold may be the forerunner of flu. Take Bayer Aspirin at the first sign of a cold and you can ward it off. Gargle with Bayer Aspirin at first sign of sore throat, as this will remove the infection.
- If you have any reason to suspect even a louch of flu, call your doctor.

Martial Law in Kabul.

Dispatches from Delhi said wireless communications with Kabul had been disrupted and "grave anxiety existed for the fate of the capital. Afghan federal troops at Nimla were surrounded by rebel forces, and the truce recently signed at Jalalabad, near the Indian border, had no effect on a majority of the tribesmen.

Martial law has been declared in Kabul and many arrests have been made there. A curfew law has been enforced by King Amanullah in an at-tempt to prevent disorder in the capital. The most recently reported on-slaught at the capital involved a brigand rebel band which was re-pulsed by federal troops. The insur-gents, however, in the past have proved

London's Reports Conflicting. LONDON, Dec. 18.-(P)-Reports of the situation in rebellious Afghanistan were confused and conflicting today because of the uncertain telegraphic and radio communications. There has been no indication of an anti-foreign

spect in the disorders.

It appeared today that there had lt appeared today that there had been two separate rebel movements. One, opposing the westernization decrees of King Amanullah, was purely religious and supposed to be under the leadership of Badcha Saquau in the Jalalabad region. Delhi advices told of a rebellion within the capital of Kabul, which may have had an antidynastic motive as well as that of re-

PACKARD

NOW BUILDS THREE STRAIGHT-EIGHT MODELS

PRICED FROM

\$2435 to \$5985

AT DETROIT

PACKARD pioneered the straight-eight motor car in America. That fact is well known.

Now, like the vast majority of all multi-cylinder car manufacturers the world over, Packard has standardized the eight-in-line power plant. Every current Packard model is now a Packard Eight. That, too, is well known.

But what is not generally appreciated is that Packard builds three complete lines of Packard Eight cars-the Standard Eight, the Custom Eight and the De Luxe Eight.

The Packard cars in each line are fundamentally alike in engineering design, in quality of materials and craftsmanship, in the characteristic beauty of their body lines. Packard has but one standard. The models in the three lines differ in size, in detailed refinements of body embellishment and in the degree of individuality available to the purchaser in color, upholstery and body styles. Today there is a Packard Eight suited to the requirements of every man or woman who seeks more than mere transportation in a motor car.

The Packard Standard Eight

The new Packard Standard Eight is a powerful, fast and luxurious car, built on two popular chassis lengths-126 inches and 133 inches. The acceleration and smoothness so long associated with the Packard Eight is refined and enhanced in this new car. Every new feature including the unique Packard Shock Absorbing System is found on the Standard models.

The improved Packard Custom Eight is offered in but one wheelbase-160 inches. Packard Custom models are more powerful, more smoothly flexible than ever before. The famous Packard straight-eight motor, with its nine bearing crankshaft, has been developed and improved to a new standard of performance. A wide range of choice in colors and upholstery is available in this fine and luxurious car.

hours to a fissure in a perpendicular cliff, with his hands frozen.

Taking his life in his own hands, the physician decided on the desperate attempt early this morning after the party had worked all night in a fruit-less effort to save the man: After bucking wind and snow throughout the morning, he managed to lead his companious to the crest of a lofty peak, tied a rope around his waist, and had himself lowered 600 feet down the icy cliff. A heavy snowstorm made it practically impossible for him to see.

The two first attempts were fruit-

says MRS. EDWARD R. FIFIELD

Chicago's charming and capable social leader nationally distinguished for her charitable work

circus benefit for the latter part of January, and in the innumerable other activities of her busy days, Mrs. Fifield is a constant and critical taxicab user.

She unqualifiedly approves of Checker service and the roomy, easy-riding, smartly appointed Checker limousines.

Mrs. Fifield and thousands of Chicago women in all walks of life have justifiable confidence in the competent, courteous, mature Checker drivers who know the city and its short cuts so thoroughly and who observe all traffic rules so

She realizes, as thousands of other Chicago women realize, that it is safer to ride in a Checker because each Checker driver has a definite property interest in his own and every other Checker cab. Indeed, the Cook County Coroner's of- ness in this town.

AS president of the Red, White and fice has credited Checker with the low-Blue Club which is planning a est accident rate of any taxicab company in the world. A \$4,000,000.00 liability insurance policy makes safety doubly sure.

Checker comfort is so widely recognized that more of these cabs are called for transporting patients to and from hospitals than any other kind.

Chicago's women have splendidly approved of the secure, serene, luxurious, low-priced transportation that Checker provides - and it will take more than venomous, envy-inspired propaganda to win them away from the excellent standard of service that Checker's stockholder drivers are setting for the taxicab busi-

Convertible Cumulative Prior Preference Stock

(Without Par Value-Annual Dividend Rate \$1.80 a Share)

Mr. D. P. Hamilton, Vice-President of Root Refineries, Incorporated, summarizes his letter of December 15, 1928, as follows:

BUSINESS AND "Root Refining Company has been incorporated to acquire substantially all of the propPROPERTIES: erties, assets, business and goodwill, subject to the liabilities, of Root Refineries, Incorporated (hereinafter called 'the company'), which specializes in the manufacture of a
high-grade 'Anti-Knock' gasoline. The company owns a refinery located near El Dorado, Arkansas, which,
when the new refinery unit just completed is in commercial operation, is expected to produce over 120,000
gallons of gasoline per day. The refinery is advantageously located within five to fifteen miles of important
oil fields and is connected with its crude oil supply by a system of main and lateral pipe lines owned by the

\$1,650,000 Utilities Public Service Company

Five-Year Convertible Secured Gold Bonds 6% Series of 1928

Dated December 1, 1928

Due December 1, 1933

Price 981/2 and accrued interest, to yield about 6.35% THESE BONDS ARE LISTED ON THE CHICAGO STOCK EXCHANGE

These bonds will be convertible at the option of the holder into 27 Class A Participating Shares of Standard Public Service Company, the outstanding Shares of which class are listed on the Chicago Stock Exchange

Mr. J. E. Albert, Vice President of Utilities Public Service Company, summarizes his letter as follows:

Capitalization

(Outstanding upon completion of present financing) Five-Year Convertible Secured Gold Bonds, 6% Series of 1928 (this issue)..... \$1,650,000.00

Preferred Stock, \$7 Dividend Series (no par value) Common Stock (no par value)...

There will also be outstanding in the hands of the public, upon completion of present financing, \$6,856,500 principal amount of funded debt of underlying companies

Utilities Public Service Com-Business, pany, a Delaware corporation, through operating companies controlled by ownership of all Territory Served and Property: the common stock (except directors' qualifying shares) of Standard Public Service Corporation and Associated Public Utilities Corporation, will furnish telephone or water service to 168 communities having a combined estimated population of 345,000, located in Ohio, Illinois, Iowa, Missouri, Oklahoma, Texas, New Jersey, West Virginia, Indiana and California. Water service will be furnished to 18 communities having a combined estimated population of 122,000. The water systems will have approximately 346 miles of mains and 20,915 customers. Telephone service will be furnished to 150 communities in seven States having a combined estimated population of 225,000. Service will be furnished to over

41,000 subscribers through 145 exchanges.

Security: These bonds, in the opinion of counsel, will constitute a direct obligation of Utilities Public Service Company and will be secured by deposit and pledge of all of the common capital stock (except directors' qualifying shares) of Associated Public Utilities Corporation and Standard Public Service Corporation. If any of the properties in process of acquisition shall not be acquired, the Company will in lieu thereof deposit cash with the trustee under the indenture or under the appropriate underlying company indenture, such cash to be devoted to such acquisition, to the acquisition of other property which may not be made the basis for the issuance of additional bonds and/or to the retirement of funded debt. The consolidated properties have been appraised by independent engineers (with subsequent additions at cost) at a net sound val-uation of \$11,779,848. Deducting from this total the \$6,856,500 principal amount of underlying bonds outstanding, the stocks pledged as security for this issue will have, on the basis of the above valuation, an estimated fair value of \$4,923,348 or over \$2,900 for each \$1,000 bond of this issue presently to be outstanding.

Earnings: Consolidated Revenues, including earnings of the operating properties to be owned upon completion of present financing, for the twelve months ended July 31, 1928, as certified by

Messrs. Barrow, Wade, Guthrie & Co., Certified Public Accountants, after giving effect to certain non-recurring charges reported by inde-

pendent engineers, were as follows: Operating Expenses, including Mainte-nance and Taxes (other than Federal In-come Taxes) but excluding Deprecia-

. \$ 786,218.71 379,325,00

9 406,893,71 Annual interest requirements on this issue \$ 99,000.00

The balance as shown above of \$406,893.71 equals over four times the annual interest requirements on bonds of this issue presently to be out-

Conversion: These bonds will be convertible at

the option of the holder into 27 Class A Participating Shares of Standard Public Service Company. Earnings available for dividends on these shares, for the 12 months ended July 31, 1928, after giving effect to this financing, are reported substantially in excess of the dividend requirement of \$2 per share per annum on shares presently to be outstanding. It is anticipated that additional earnings will accrue to such shares as a result of recent property acquisitions, economy through consolidation and unified operation and the normal growth of the public utility business.

Purpose of Issue: The proceeds derived from the sale of these bonds will be used in part to pay for the acquisition of a part of the above described properties, to retire indebtedness, and for other corporate purposes and/or to reimburse the Company for such expenditures.

Management: Through ownership of common stock, Utilities Public Service Company will be controlled by Standard Public Service Company. Stocks of these companies, junior to this issue of Bonds, outstanding in the hands of the public will have a market value based on current quotations of over \$3,000,000. The management of Utilities Public Service Company includes men who have been for many years successfully ciated with public service operations.

Notice of Dividend on Preferred Stock

on Preferred Stock

The Board of Directors of Middle
West Utilities Company has deciared the following quarterly dividends: Two Dollars (\$2.00) upon
each share of the outstanding Preferred Stock having a par value of
\$100 a share, payable January 15,
1929, to holders of record on Decemher 31, 1928. The last preceding
dividend of \$2.25 a share included 25c a share in order to complete the payment in the calendar
year 1928 of the additional 1% required to be paid on the preferred
stock because of the payment of
dividends in excess of \$6 per share

This compilation shows in graphic form the extraordinary growth in the volume of the securities issued and marketed during the past few years, and tabulates the increases in production, manufacturing, and trade which have made possible this development in the securities markets. Among the interesting matters brought out in this summary is the fact that the volume of financial transactions in the United States has practically doubled in the past seven years.

Owing to the interest that has been evidenced by clients of this house who have seen this material, we believe it may prove of value to others who are interested in current financial matters. The folder is now being printed, and we shall be glad to send a copy to anyone who requests it.

Mr. Hyman N. Kohn, President of the Corporation, summarizes his letter as follows:

History and Business: Mercantile Discount Corporation, summarizes his letter as follows:

History and Business: Mercantile Discount Corporation, Delaware, and Mercantile Discount Corporation, Illinois. This consolidation involves no change in the management of the business but only in the capital structure, thus making it possible to obtain additional working capital and to expand the field of operations.

The business was started in 1917 under the name of Motor Car Securities Corporation which has since been engaged in the purchase from dealers of installment lien obligations on automobiles for both pleasure and business use. In January 1927, the Mercantile Discount Corporation was organized to purchase accounts receivable and installment lien obligations of manufacturers and dealers engaged in production and distribution of household utility, machinery, factory equipment, fixtures and other lines. The business of these companies in 1928, before having the use of the proceeds of any new financing, is the greatest in volume and is resulting in larger profits than at any time in the entire history. than at any time in the entire history.

Purchases totalled \$4,494,373 for 1927 and \$7,047,130 for the first 9 months of 1928. Losses average some-

Earnings: The Companies have always operated at a profit. According to an audited statement by Price, Waterhouse & Co., net income for the first 9 months of 1928 was equal to 10.86% on the average invested capital or 14.22% for the year with three months estimated. Officials of the Corporation estimate earnings available for dividends for the year 1929 at something over \$5.00 per share on the Class A Preference Shares to be Balance Sheet: A consolidated balance sheet as of September 30, 1928, after giving effect to adjustments resulting from present financing, certified by Price, Waterhouse & Co., shows net quick assets of over \$27.00 back of each share of Class A Convertible Preference Stock after providing reserves equal to \$2.25 per share. No value is stated for goodwill or other intangible values as a going concern.

Purpose of Issue: The purpose of the present financing is to obtain additional working capital. This necessitated the reorganization of the Company, the issuing of a new class of stock, the retirement of the 7% preferred stock and the consolidation of two companies.

Management: The Company will be under the direct personal management of Mr. Hyman N. Kohn, Mr. A. H. Rosenberg and Mr. Wm. Citron, who have been connected with the business since its incorporation in 1917 and

The legality of this issue will be subject to the approval of Messrs. Chapman & Cutler, Chicago, and Messrs. Matthews & Kogel, of Chicago. a Real Necessity BY ANTOINETTE DONNELLY.

Good looking nands are no longer a inxury of the idle. They are a necessity, and sometimes a pretty painful ene. A young woman badly in need of a position applied at a department store in the frame of mind when mop-ping up the floors would have been welcomed if it would provide her room and board. In their system of appraising an applicant it was re-cuired that the young woman remove her gloves and show her hands.

Before applying at the next estab-lishment, the girl had a manicure on pretty nearly the last seventy-five cents she owned. She was convinced that her hands undid her opportunity at the last place.

In certain departments it is logical , that a neat hand be required of a saleswoman. But the fact that every applicant, regardless of what depart ment she may be assigned to, is put to the test, indicates a deeper logic than is involved in the mere selling of goods. Refuse to Reply on Plea of Self-Incrimination.

Barney Mitchell, treasurer of the Checker Taxi company, yesterday followed the precedent established by other officials of the concern by refusing to answer questions concerning certain transactions. The questions concerned alleged "graft" by means of sales commissions involving officers of the company. These alleged deals are the subject of hearings before Federal Master in Chancery Thomas J. Peden.

The answer favored by Mr. Mitchell The answer favored by Mr. Mitchell in his replies to the queries was: "I refuse to answer on the ground that in my opinion it might tend to incriminate me or degrade me." This reply, according to his personal counsel, Joseph R. Roach, originated with Nicky Arnstein and has been approved Nicky Arnstein and has been approved the highest courts.

Denies Getting Commission.

Preceding Mitchell to the witness Preceding Mitchell to the witness stand was Max Raifman, secretary of the company, who entered a general denial that he had received any commissions from the sales of meters, gasoline, or automobiles to Checker drivers. But to questions in regard to a \$140,000 bank account in the name of Jack Friedman, Raifman retreated to the phrase used so effectively later by Mitchell. Friedman has been identified as Sidney Gordon, prother of Harry I. Gordon, vice president of Northwestern university.

The son, Fletcher Durbin of Chicago, was at the bedside of his parents, having been here throughout their illness.
The former governor was born at Lawrenceburg, Ind., May 4, 1847. While a youth he enlisted in the Union army and served as a private. Returning home, he taught school in southern Indiana.

The Salvation Army's territorial staff band and its concert from WMBI, \$430 to 10:30, also deserves high praise. There are bands and bands but this band is the band of them all. This band with a sacred message is a producer of golden toned music, serious but not too heavy.

The Salvation Army concert seemingly melted into another program that by Frank Barden, tenor, W-G-N's 10:40 to 11 orchestral program. And 1 couldn't help but notice the glorious silver tone of this voice.

Somehow these concerts remind me of Thomas Wren's appeal for addition-

southern Indiana.

In 1990 he was elected governor with a plurality of 25,000 over John W. Kern, Democrat. He again was nominated for governor in 1912 but was defeated in the Wilson landslide. In the Spanish American war Durbin was colonel of the 161st regiment of infantry, organized in Indiana, and took his regiment to Cuba. SECOND MORTGAGE LOANS

The best suggestion we can make to any property owner who desires a second mortgage is to shop around at half a dozen or more places to be convinced that the raise chared by the Chicago Morris Plan Bank as agent are not only the bediock rates, but they are at least 20 % lower. You may observe that there are some very low rates quoted but attached to the rate are certain rather rigid requirements, and if you cannot meet these requirements tha raise The Chicago MORRIS PLAN BANK
